**Risk Factors:**
- Predict, analyze, and minimize risk factors while utilizing multi-task performances and reduced-risk driving practices in the driving environment implementing the knowledge, understanding, skills, and experiences of the Driver Education Course including Traffic Laws, Driver Preparation, Vehicle Movements, Driver Readiness, and Risk Reduction in various traffic flow and traffic volume levels while performing commentary driving techniques.
- Accept or give right of way while performing commentary driving techniques at controlled intersections, uncontrolled intersections, intersecting roads with lesser or greater number of lanes, intersecting roads with different pavement surfaces, T-intersections, controlled-access roads, railroad grade crossings, turns (left and right), and entering a public road from a private road.

**Space Management:**
- Employ a space management system while utilizing multi-task performances and reduced-risk driving practices in the driving environment implementing the knowledge, understanding, skills, and experiences of the Driver Education Course including Traffic Laws, Driver Preparation, Vehicle Movements, Driver Readiness, and Risk Reduction in various traffic flow and traffic volume levels while performing commentary driving techniques.
- Utilize a space management system while performing vehicle maneuvers to establish vehicle operating space, line of sight, path of travel, lane placement, right-of-way, following interval, vehicle speed, and communication.

**In-Car Progress Assessment:** The student reduces risk by legally and responsibly utilizing baseline and progress assessment tools to evaluate and improve behind-the-wheel skill level (mastery equals 70% or above).
